

Esteban Lopez Ochoa is an Assistant Professor of Urban and Regional Planning at the University of Texas at San Antonio (UTSA). His research seeks to take advantage of the wider availability of “bigger” data to examine housing, labor, and education issues that contribute to the unjust burden of spatial inequalities in our communities, both in the U.S. and Latin American contexts. Prior to UTSA, Esteban was an Assistant Professor at the Universidad Adolfo Ibáñez (UAI) in Viña del Mar, Chile. He obtained his URP PhD as a Fulbright Fellow in 2016 from the University of Illinois at Urbana-Champaign.
