

# KLESSE COLLEGE EXPERIENCES

# INTERNSHIPS

“ In my experience in the summer at Kaneka, I learned that despite having a guided and structured degree, a lot of engineering work is multi-disciplinary or cross-functional. Projects related to utilities and infrastructure showed me that there is always more to learn, and different perspectives are needed to approach a problem-solving process. Moving forward, my biggest takeaway would be that all knowledge and experience is equally valuable and even the little things are learning opportunities. ”

**Jonas Marcelle** interned at Kaneka.
